Today 14% of Ethereum Mainnet Execution Clients are Besu.
Two Projects Graduated in 2023!

Hyperledger Cacti is a blockchain integration tool designed to allow users to securely integrate different blockchains.

Hyperledger FireFly is the first open source Supernode: a complete stack for enterprises to build and scale secure Web3 applications. Learn more!
Helping A Community Grow by Pruning Inactive Projects

All open source projects have a life cycle.

We thank & applaud our Blockchain Pioneers
Our community sees, brings & builds what’s next.
